Shenzhen China.

Efficient: We always respond to customer inquiries promptly.  
Professional: We provide industry insights and help reduce costs.

Reliable: Honesty is our virtue — we never make empty promises.

We believe that if you give your customers worries, they will give you nothing in return.

Our spirit is to work with happiness — a value that many of our customers truly appreciate.

We would be delighted to share this philosophy with you.

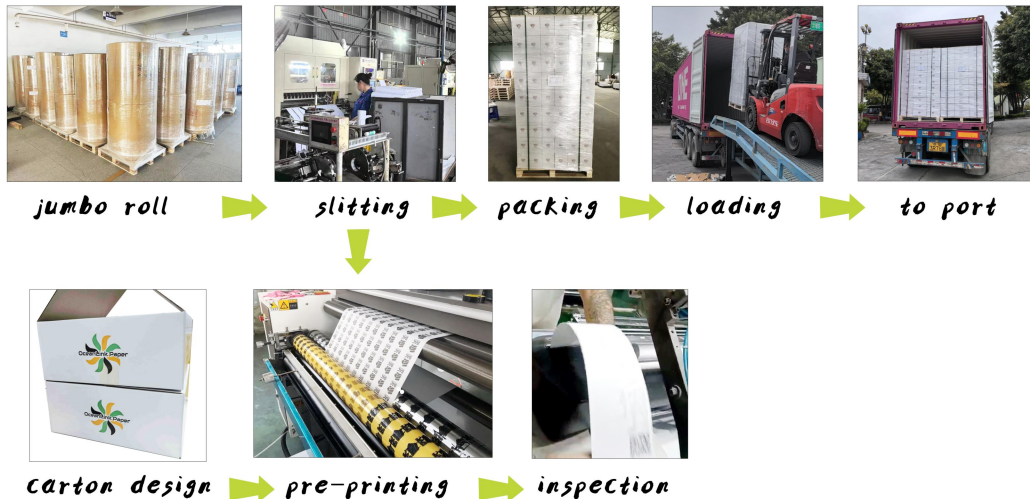

Our product lines:

1. Thermal paper: jumbo rolls, finished rolls, thermal label stickers
2. Thermal transfer labels, inkjet/laser labels
3. Carbonless paper: computer paper, 1/2/3/4 ply NCR rolls
4. Printing ribbons: wax ribbons, wax/resin ribbons, resin ribbons

**Production Process**

Following up every major steps of production is our standard procedure of fulfilling orders.

Upon customer requests, we will do our best to keep our customers updated on production progress.

Samples from mass productions will be kept. For future quality checked.

**Sample:** available for customer inspection

**Customization:** OEM/ODM service available

## More products: Thermal transfer ribbon:

**Layers of Thermal Transfer Ribbon**

- Ink**  
Made of wax, wax resin or resin, this layer is transferred to the receiving material during the printing to generate the image. Its composition determines the heat, abrasion, solvents resistance properties of the ribbon.
- Release**  
Helps the ink to be removed from the base film even at low temperature
- Base Pet Film**  
Coats the ink and the back layer to allow heat transfer from the thermal head to the ink
- Back Layer**  
Protects the base PET film and the thermal print head, reduces static electricity issues and improves the runnability of the ribbon through the printer

**Normal Specifications:**  
Width of Ribbon: 40mm--110mm  
Length: 30m--300meter

**Types:**  
wax ribbon  
wax resin  
resin

## Thermal jumbo roll:

*Supplying best quality thermal paper jumbo rolls:*  
normal specifications: width: 774/784/790/795  
length: 8000/5100/4700      customization available

## Carbonless paper jumbo rolls:

*Supplying best quality carbonless paper jumbo roll*

## About us

Since 2012, OceanLink has been actively involved in the paper industry. Starting as a trading company, we have grown into a converter of various paper products.

Our main product lines include thermal paper, labels (inkjet and laser), and computer paper. We maintain strong relationships with leading paper manufacturers, including listed companies, which allows us to offer competitive pricing and consistent quality to our clients. At OceanLink, we are not just a company that sells qualified products — understanding our customers' needs is essential to every member of our team.
